## **News Release**

For Immediate Release: February 10, 2020

### **Water conservation notice continues for Kilauea customers**

KILAUEA – The water conservation notice remains in effect for Kilauea customers until further notice. Electrical power has been restored to the Kilauea deep well pump stations, however customers are advised to continue to minimize water use to essential needs only; such as drinking, cooking and sanitation purposes in order to allow the system’s water tank levels to stabilize and avoid a water service outage.

Water conservation measures also includes refraining from car washing and turning off plumbing fixtures that automatically draw water; such as irrigation systems and ice machines.

An update will be provided when new information becomes available. To monitor updates online, visit [www.facebook.com/KauaiDOW](https://www.facebook.com/KauaiDOW).

For more information, please contact the Department of Water at 245-5461.
