## **Indoor Capacity for High-Risk Activities Policy**

Entities engaged in high-risk activities under the Governor's Executive Order No. 21-08 may allow indoor capacity up to 100%, provided that the entity implements a policy requiring vaccination or a negative COVID-19 test result obtained within 48 hours. This includes gyms, as well as bars, restaurants, and social establishments.

Each entity is responsible for developing and implementing its own policy requiring vaccination or a negative COVID-19 test result. No consultation or approval from the County is required. The Department of Health may request assistance or cooperation from an entity for contact tracing purposes, should a COVID-19 case be identified.

The County encourages entities to follow CDC and other national and state guidelines in the development of their policies.
