Narratives

Disaster Damage:

In April of 2018, severe flooding, landslides, and mudslides resulting from record rainfall occurred. Overnight from April 14 to April 15, 2018, Wainiha set a new national record with 49.69 inches of rain, which was last set in 1979 when Alvin, Texas had 43 inches of rain within a 24-hour period. The April storm followed an upward trend in rainfall making for the wettest February across the island chain in a decade, according to the National Weather Service. The Hanalei River flooded and landslides occurred between Wainiha and Lumahai closing Kuhio Highway on several occasions starting in late February 2018.

During the mid-April storm, flash flooding put parts of Kuhio Highway 5 to 8 feet underwater as the Hanalei River and nearby Waioli Stream overflowed. The Wainiha River and Kilauea Stream also flooded. Dozens of homes collapsed into rising waters on Kauai, taro fields were wiped out, portions of the state highway were destroyed by landslides, businesses were inundated with water and Black Pot Beach Park virtually disappeared underwater. The storm moved Southeast across Kauai flooding Kapaa Stream and Anahola Stream and triggered flooding in Koloa and Kalaheo destroying properties and threatening homes.

The disaster impacted 760 homes across Kauai and Oahu. Of the 350 homes impacted on Kauai, 187 homes were rendered uninhabitable as defined by Major and Destroyed damage categories.

- Destroyed - 11
- Major - 72
- Minor - 115
- Affected - 152

The preliminary damage assessments from FEMA reflected a Public Assistance cost estimate of \$19.7m and an Individual Assistance Cost Estimate of \$2.7m. SBA Verified Loss of Business figure totaled \$940k. The Loss of Business figure was compounded by 14 months of lost revenue before road repairs restoring access to the community were completed.
